

< S 2000 >

Mild alkaline, strong foaming exterior cleaner for all vehicles

Product description

S 2000 is a mild alkaline cleaning product for all vehicles with a high foaming action.

Properties

S 2000 is especially developed for the cleaning of all vehicles in self-carwash systems, or as a high foaming pre-soak in a classic carwash system.

S 2000 is advisable for cleaning of vans with old paintings and lettering.

S 2000 does not contain soda, potassium or solvents.

Directions for use

- Spray or foam with a concentration of 1-7% **S 2000**, depending on the dirtiness. From the bottom to the top.
- Self-service: dose 1-4%, by preference with a foam lance
- Rinse thoroughly with high pressure unit.
