

< TOP WAX 60 >

Strong concentrated drying agent for use in all carwashes

Product description

TOP WAX 60 is a very fast working drying agent that leaves a glossy shine on the paintwork. Very efficient in both hard and soft water.

TOP WAX 60 is an outstanding dryer for use in reversed osmosis water and carwashes with the highest chain speeds.

Properties

TOP WAX 60 has been developed for use with hard and soft water, and can be applied as a hot or cold wax.

TOP WAX 60 is silicone free.

Directions for use

- Dose 10 to 20 ml **TOP WAX 60** in the water of the drying agent arch. Use approx. 10 to 20 litre water per car.
- Dry the car.
- For high pressure applications weaker dosages can be sufficient.
- For manual carwashing: dilute 10ml **TOP WAX 60** at the last rinsing water, dry with a clean non-marking cloth. Never let dry.

Specifications

Appearance:	light red fluid
pH conc.:	4
Density (20°C):	0.950 kg/l
Freezing point:	0°C

Corrosion data and precautions

Keep frost-free!
Please check the MSDS.
